### How Many?

By Darryl Megiarni  
PAPUA NEW GUINEA

Fascinated by the speed,  
We forgot our traditional canoes indeed,  
To catch as many is a need,  
Ditch canoes for speed boats,  
To race to wherever the "TUNA" floats,  
With canoes the catch is one,  
Speed boats the catch is a tone,  
"The Pacific way of Fishing"  
Is slowly finishing,  
A TUNA a day,  
Is what the old man say,  
But we need many,  
Just for the money,  
How Many?  
Too Many,  
Even if there's nothing,  
For our children to catch something,  
Come tomorrow,  
Where will we borrow?  
To replace the TUNA's we caught,  
How far will we sought,  
Fishing companies use huge nets,  
All day long as the sunsets,  
If only there's a limit,  
Authorities should permit,  
To...How Many...How Many... TUNAS we should catch per day!!!
