In addition to those terms and conditions provided in Article II of An Arrangement Implementing the Nauru Agreement Setting Forth Minimum Terms and Conditions of Access to the Fisheries Zones of the Parties, and Article I of A Second Arrangement Implementing The Nauru Agreement Setting Forth Additional Terms and Conditions of Access to the Fisheries Zones of the Parties, the Parties shall establish the following minimum terms and conditions in all of their subsequent foreign fishing agreements and their licensing requirements for vessels fishing the common stocks of fish within the Fisheries Zones and shall not issue licences unless the minimum terms and conditions are accepted and observed:

1. *Catch Retention*

All bigeye, skipjack and yellowfin tuna taken by a purse seine vessel shall be retained on board and then landed or transhipped, except for:

- (a) fish clearly and demonstrably unfit for human consumption; and

- (b) the final set of a trip when there may be insufficient wellspace to accommodate all fish caught in that set.

The Parties shall adopt appropriate procedures for the implementation of this measure, including reporting.

2. *FAD Closure*

There shall be no deployment or servicing of Fish Aggregating Devices and associated electronic equipment, or fishing by purse seine vessels on floating objects, between 0001 hours GMT on 1 July and 2359 hours GMT on 30 September each year, except that:

- (a) a Party may exclude all or part of its Fisheries Zone from the closure if it determines that it has suffered a disproportionate burden from application of the closure and advises the depositary accordingly; and
- (b) a Party may apply appropriate arrangements set out in a Management Plan to meet the requirements of domestic vessels that are highly dependent on fishing on floating objects within the Fisheries Zone.

2A. *Prohibition of Sets Associated with Whale Sharks*

No purse seine vessel shall engage in fishing or related activity in order to catch tuna associated with whale sharks (*Rhincodon typus*).

3. *Closure of High Seas Areas*

A vessel shall not fish in the areas listed below during the period of validity of a licence issued by a Party:

- (a) the area of high seas bounded by the national waters of the Federated States of Micronesia, Indonesia, Palau and Papua New Guinea;
- (b) the area of high seas bounded by the national waters of the Federated States of Micronesia, Fiji, Kiribati, Marshall Islands, Nauru, Papua New Guinea, Solomon Islands and Tuvalu; and
- (c) any additional high seas areas located within 10°N and 20°S latitude and 170°E and 150°W longitude.

4. *Monitoring*

- (a) In order to monitor compliance with the catch retention and FAD closure requirements, all foreign purse seine vessels shall carry at all times an observer from either the national observer programme of a Party or an existing sub-regional observer programme; and

- (b) The owner, charterer, operator, master or any other person responsible for the operation of a licensed vessel shall ensure that the Automatic Location Communicator¹ of the vessel is switched on and is operating properly at all times during the period of validity of a licence issued by a Party.

ARTICLE II

Review and Implementation

Review

1. The Parties shall review the implementation of these measures at the annual meeting of the Parties, and decide on the future application of these measures, taking into account:
 - (a) the effectiveness of the measures in reducing fishing mortality, especially on juvenile bigeye and yellowfin tuna; and
 - (b) the extent to which compatible measures are being applied on the high seas and in the waters of other Members of the Western and Central Pacific Fisheries Commission.
