AS AWARDED ON MAY 2, 2017

RUNNERS-UP PRIZE WINNER

How Tuna Sees Us

By Lloyd Newton
SOLOMON ISLANDS

WORLD TUNA DAY ART AND TALENT QUEST WINNING ENTRY

AS AWARDED ON MAY 2, 2017

Artwork Explanation:

This art work is try to visualise the intension of Tuna itself and how Tuna think about people in reverse. If you put yourself in the mind of Tuna, this is how we people should behave towards preserving our Tuna fish. Gill nets is not good enough to catch tuna fish but using of one-string fishing style could help to conserve and manage tuna in future sustain.

People represent the Islanders, the Tuna eyes represent visualise on how we people should think about our Tuna. A hook that held up represent the management style of fishing. Those that catch in the net represent careless fishing management style. By doing so, one string fishing will help conserve our tuna for our future generation.
